PROFESSIONAL PROFILE

Higher Diploma student at the Institute of Software Engineering (IJSE), developing practical skills in software development, object-oriented programming, databases, and web technologies. Has completed an academic supermarket management system featuring automated email alerts when stock falls below a defined level. Interested in building reliable applications, solving practical problems, and continuing to grow through software development opportunities.

EDUCATION

Higher National Diploma (HND) | Institute of Software Engineering (IJSE)
2025 – Expected 2027

TECHNICAL SKILLS

Programming: Java, JavaScript, TypeScript, Python
Frontend: HTML5, CSS3, React
Backend: Spring Boot, Node.js, Express.js
Databases: MySQL, MongoDB
Tools: Git, GitHub, Postman, IntelliJ IDEA, Visual Studio Code
Core Concepts: Programming Fundamentals, Object-Oriented Programming, REST APIs, Database Fundamentals

PROJECTS

ML Supermarket Management System | Java, Spring Boot, MySQL

- Developed an academic supermarket management application with a focus on managing stock-related operations.
- Implemented an automated low-stock alert that sends an email notification to the administrator when stock reaches a defined threshold.
- Applied backend development and database concepts to support the application's functionality.

LostLink — Lost-and-Found Platform (Planned) | Planned: React, TypeScript, Node.js, Express.js, MongoDB

- Planned concept for a Sri Lanka-wide platform where people can report, search for, and recover lost items.
- Proposed search filters by item category and location, with potential-match suggestions. Development has not yet started.

PROFESSIONAL INTERESTS

Full-Stack Development • Backend Development • Problem-Solving • Continuous Learning
